

BRIEF REDESIGN WILDER — pour Cursor

Je veux refondre le design de la page d'accueil de Wilder vers un style "atelier de jardin / plan d'architecte".

Objectif

Reproduire le style de la maquette HTML/CSS fournie plus bas dans mon app Next.js, SANS casser les fonctionnalités existantes (scan, compteurs, auth, trouvailles, Stripe, Supabase).

Direction visuelle

- Fond papier kraft beige (#ece7da) + plan de jardin technique en arrière-plan (SVG : arbres avec rayon de couronne, terrasse, potager, graminées, boussole, cotes). Grille fine type papier millimétré.
- Typo : Fraunces (titres serif), Archivo (labels/boutons sans-serif).
- Couleur encre : #1f1c12. Accent doré : #c9a86a.
- Burger en haut à GAUCHE, bouton Partager en haut à DROITE.
- Bouton Scanner central rond, fond encre foncé.
- Catégories en pastilles outline.
- "Planche du jour" = carte foncée avec vignette.
- "Tes dernières trouvailles" = vignettes numérotées (N°01...) avec nom + nom latin, en scroll horizontal.
- Menu burger : Scanner / Mes trouvailles / Mon projet jardin / Près de moi / Mon compte.
"Mon projet jardin" ouvre une PAGE DÉDIÉE (hero + canvas plan + avancement en étapes + bloc pro), voir la maquette.

Règles importantes

1. Commence par me dire quels fichiers tu vas modifier et montre-moi ton PLAN AVANT de coder.
2. Ne touche PAS à la logique métier : Supabase, Stripe, compteurs de scans, webhook,

auth.

3. Si un nom de plante / une donnée vient déjà de la base, garde la source dynamique — la maquette montre juste le style, pas les vraies données.

Maquette de référence (HTML/CSS complet)

Le style à reproduire est dans le fichier wilder-v3.html que je te fournis. Le code complet est ci-dessous entre les balises.
